PROFESSIONAL SUMMARY:

I am Jai Durgha, a final-year B.Sc. Information Technology student at Sri Ramakrishna College of Arts and Science with over three years of experience in web design and development. I specialize in creating user-friendly, responsive applications and have a proven track record of delivering innovative solutions through real-time projects. My participation in multiple hackathons has honed my skills in application prototyping using design software. I possess strong creative, decision-making, problem-solving, and teamwork abilities, with the flexibility to adapt to dynamic environments. I am eager to bring my expertise and passion for technology to your organization while contributing to its success and growth.

EDUCATION:
